Name	Title
Phone Number	Company/Organization
- NOTE: If the Hold Harmless Agreement is not signed by the owner of the property on which the use is to occur, the owner must provide separate written consent for the temporary use.**
- Permit Fee is \$30.00 per tent, plus \$30.00 Temporary Use Fee.

### Required Inspections

1. When the tent is erected and before being used.
2. After tent has been taken down.

# Urbandale Fire Department

## Tent, Canopy, and Membrane Structure Requirements

The Urbandale Fire Department has established the following requirements for the use of any **TENT, CANOPY, OR MEMBRANE STRUCTURE** having an area greater than 200 square feet for any tent, and greater than 400 square feet for any canopy or membrane structure. Exception: tents used exclusively for camping.

1. A site plan is required to be submitted with the permit application a minimum of 5 working days prior to the date of the event. The site plan will need to be legible showing the location of the tent, in feet, from other structures, access roads, streets, vehicle parking, and property lines. The interior plan layout shall indicate tables, stages, etc.
2. A certificate of flame-retardant treatment is to be provided with the application for each structure being permitted.
3. Fire extinguishers shall be 10-pound ABC and are to be provided in each tent or canopy by the exits.
4. An occupant load sign shall be established for the tent based upon 1 person for every 15 square feet when tables and chairs are used, one person for every 7 square feet when only chairs are used and one person for every 5 square feet for standing room. Only the usable floor space needs to be calculated when determining the occupant load. The sign shall be posted by the main entrance.
5. Exits shall be spaced at approximately equal intervals around the perimeter of the tent so that no point within the tent is more than 100 feet from an exit. The numbers of exits is dependant upon the occupant load. Exit openings from tents shall remain open unless covered by a flame-resistant curtain and shall be of a color, or colors, which contrasts with the color of the tent.
6. Self-luminous, internally or externally illuminated exit signs are required when the occupant load exceeds 50 persons.
7. Emergency lights shall be placed in any tent when the occupant load exceeds 50.
8. Smoking is prohibited in any tent, canopy or membrane structure. "No Smoking" signs are required to be posted in conspicuous locations.
9. Tents, canopies and membrane structures shall not be located within 20 feet of property lines, buildings, other tents, canopies or membrane structures, parked vehicles or internal combustion engines.

NOTE: This is just a highlight of the fire code regulations. There are some exceptions to these regulations. This list is not an all-inclusive list. Source: International Fire Code, 2006 Edition. If you have any questions, please contact the Urbandale Fire Department at 515-278-3970.
